### **DETAILED ACTION**

1. Applicant's arguments, see page 12, line 3-21, filed 17 November 2006, with respect to claims 1-21 have been fully considered and are persuasive. The rejection of claims 1-21 has been withdrawn and applicant's amendment after final filed on 17 November 2006 has been entered. Claims 1-21 are pending.

### ***Allowable Subject Matter***

2. Claims 1-21 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1-21 are allowable over the prior art for at least the reason that the prior art fails to teach and/or suggest a snorkel device for a submarine including a telescopically movable snorkel tube, an optical observation means compact unit and further compact unit and short-travel drives arranged and cooperating in the manner as particularly recited in the claimed combination.

Wilkins, US 3,863,584 discloses in fig. 1 a snorkel device (22) for a submarine having a pressure hull (110) including a telescopically movable snorkel tube (fig. 1) connected to the pressure hull but does not include an optical observation means compact unit and further compact unit with short-travel drives arranged and cooperating in the manner as particularly recited in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
